Along with imparting higher education. The system which sows Indian culture and manners in the fresh minds of small children is G.P.B Saraswati Vidya Mandir. Our vows to inculcate and spread the sentiment of following and preserving our precious cultural heritage among the young minds. I would request all parents to gift their children with their time that by far remains the best present. In my recent interactions with parents.

Very few people in our country, know the difference between literacy and education. A person who can read and write is a literate but a person who understands and makes others understand is educated. I still remember our cultural and national heritage that is '**Vasudhaiv Kutumbakam**'. The integration of academic excellence and professional learning is one of G.P.B SVM school's unique strength. We strive for high standards in the transmission of knowledge within a dynamic and interactive environment, thereby enabling our students to gain distinction and honours in their chosen field.

Ashish Kumar Jha

Principal, G.P.B, S.V.M, Morabadi

The development of strong links between the home and school encourages the continuity in the children's lives: Creation of a reciprocal network of Communication, Participation, by all involved in the life of the school and feelings of ownership by all involved. We are living in a knowledge based society where technology acts as an enabler and as a tool for empowerment. Technology has changed the way of education which has traditionally been disseminated, changing the dynamics of the entire teaching and learning process in the classroom and beyond.
